📍 Bengaluru, India | 📞 +91 7411202198 | ✉ workwithabhay3006@gmail.com | [🌐 LinkedIn](#) | [🐙 GitHub](#)

EDUCATION

Bachelor of Engineering in Information Science and Engineering

Nitte Meenakshi Institute of Technology, Bengaluru

B.Sc. in Data Science & Programming

Indian Institute of Technology, Madras

CGPA: 8.5

Aug 2023 – Jul 2027

May 2024 – Present

TECHNICAL SKILLS

Programming Languages: Python, C++, Java, JavaScript, MySQL

Frameworks & Tools: FastAPI, Flutter, Firebase, Docker, Git/GitHub

Core Concepts: Data Structures & Algorithms (DSA), Object-Oriented Programming (OOP), Operating Systems, Computer Networks Database Management Systems (DBMS)

AI & Data: Pandas, scikit-learn, TensorFlow, NLP, PyTorch

Cloud: AWS, Google Cloud Platform (GCP)

PROJECTS

Enterprise Knowledge Agent (Agentic AI) | [GitHub](#)

Dec 2025 – Present

- **Tech Stack:** Python, FastAPI, MySQL, RAG, Groq API, n8n, Docker, REST APIs
- Engineered a scalable Agentic AI platform using FastAPI, MySQL, Docker and RAG pipelines to deliver secure, context-aware knowledge retrieval.
- Developed retrieval pipelines, role-based access control (RBAC), and Retrieval-Augmented Generation (RAG) to provide secure access to structured and unstructured organizational data.
- Built scalable FastAPI services, workflow automation, and report-generation modules supporting real-time queries and multi-format exports.

MACRA – Financial Market Analytics & Decision Support Platform | [GitHub](#)

Apr 2025 – Jun 2025

- **Tech Stack:** Python, JavaScript, scikit-learn, SQL, REST APIs
- Engineered a data-driven analytics platform to process financial datasets and generate actionable insights through predictive modeling and automated analysis.
- Processed financial indicators including PE Ratio, PB Ratio, Dividend Yield and Market Capitalization to support investment analytics.
- Developed REST APIs and automated data processing workflows supporting scalable financial data ingestion and model inference.

FlutChat – Real-Time Chat Application | [GitHub](#)

Jan 2025 – Mar 2025

- **Tech Stack:** Flutter, Dart, Firebase
- Built a real-time chat application with Firebase Authentication and Firestore synchronization supporting secure cloud-based messaging.
- Designed modular application architecture and state management workflows improving maintainability and responsiveness.
- Improved application performance through debugging, modular architecture, and optimized API handling for scalable deployment.

GameMania – Multi-Game Flutter Platform | [GitHub](#)

Sep 2025 – Nov 2025

- **Tech Stack:** Flutter, Dart, OOP
- Developed a multi-game Flutter application featuring interactive gameplay mechanics, animations, and responsive UI components.
- Applied object-oriented programming principles and modular architecture to ensure maintainability and scalability of the platform.

CERTIFICATIONS

Cloud & DevOps: Google Cloud Engineering, Google Cloud Foundations, AWS Cloud Architecture & Foundations, Azure AI & DevOps Fundamentals – [Credly](#)

AI/ML & Data: IIT Madras Data Science Foundations, Algorithmic Thinking (Rice University), Python for Data Science, AI/MLOps Foundations, NLP & Deep Learning;

ACHIEVEMENTS

- Amazon ML Challenge: Ranked in the Top 15% nationally.
- Code Cadets Hackathon (IISc): Ranked in the Top 5% among 500+ participants.
- Smart India Hackathon 2025: Institute Representative; qualified at the college level.
